

Continuous Power

Caterpillar C18 Diesel Generator Set
Location: Caribbean

SUMMARY

Generator sets in the Caribbean are the main source for utility power. A customer's generator set was damaged and a quick replacement was required.

CHALLENGE

Being a small island, removing the old generator set and installing the replacement was very difficult. No large forklift or crane was available so a large earth mover was used.

SOLUTION

IMP Latin America delivered the new C18 Generator Set and it was installed using the available equipment in the remote part of the island.

Specs

Equipment:
Generator Set Capacity of 600 kW, 60 Hz, 208 V, 1800 RPM

Applications:
Continuous Power
