Javier Barahona, Power Project Expert, Joins IMP, Latin America

The international power project expert is joining IMP's Latin American Division in Miami. Mr. Barahona's specific project expertise and leadership capabilities will further enhance an already prolific power generation equipment sales team.

Burbank, California, June 10, 2014 - Industrial Motor Power Corporation announced the hiring of Javier Barahona as its Director of International Sales. Mr. Barahona is a proven leader in the Power Projects Sector, having generated over \$400 million in gross revenues in the sale of power projects and more than 500 megawatts of power.

A veteran of the power generation industry, and specifically International Power Projects, Mr. Barahona's strength lies in his ability to identify specific power production opportunities, assess their viability, and provide appropriate solutions. This proficiency is further enhanced by his aptitude in contract negotiations, individual project management, and ability to determine the financial or practical feasibility of individual ventures.

A professional with more than 15 years of experience, Mr. Barahona is a graduate of the Universidad de Los Andes, receiving a degree in Mechanical Engineering. He also holds an MS in Finance from Florida International University. He has spent time with Caterpillar, and its associated companies, working in the past decade in engineering, marketing, and sales roles for GECOLSA, CAT Corporate, and SoEnergy International.

Nicholas Nadjarian, Chief Executive Officer of IMP, when asked about the hiring's significance offered: "Having worked with Javier in the past, we are excited to have him on our team. His experience in the Power Projects Sector is unparalleled and will benefit both our vendors and our clients. I look forward to working closely with him to increase the productivity of our business and its effectiveness around the world."

IMP is one of the largest independent suppliers of new, surplus, and used power equipment in the world. The company specializes in providing quality diesel, natural gas, and turbine power equipment worldwide. Operating in the power generation market for more than 40 years, IMP is both an inventory owner and supply chain manager of generators, engines, and accessories.
